ST. HELENS PUBLIC LIBRARIES

Introduction

The volumes listing the Members of the Royal Society of British Artists who exhibited from the inception of the Society in 1824 to 1892 and 1893 to 1910 appear to have satisfied a considerable need for a record of the period and have resulted in numerous requests to bring the information up to date as far as is possible.

The publishers asked if I would assist in this task and I am deeply indebted to the archivists who have spent so much time and care in analysing the information from the catalogues of the Society.

This third volume will bring the record up to 1930 and other volumes are being prepared for issue in due course to cover the period up to 1970.

I hope this volume will be as satisfactorily received as its predecessors and will prove equally useful.
