Introduction

'Their Works are their History'

The volumes listing the Members of the Royal Society of British Artists who exhibited from the inception of the Society in 1824 to 1892, 1893 to 1910 and 1911 to 1930 appear to have satisfied a considerable need for a record of the period and have resulted in numerous requests to bring the information further into the twentieth century. This fourth volume takes the work to 1946 and will, we trust, be equally useful. In consequence, approaching sixty thousand paintings have been extracted from the exhibition catalogues and put into easy reference order.
